Note: P04205 and P04205-24 solenoids are screw terminal solenoids. Each is packaged with an optional male tab adapter for those applications that have push-on type terminal.

Note: This cross-reference is ONLY a guide. The information contained herein is subject to change without notice. Service Technicians must ensure that solenoid to brake housing and solenoid to valve cover clearance is adequate to prevent any contact with the solenoid cap or electrical terminals. Improper application or installation can cause serious engine brake and/or engine damage.

Purchaser assumes the entire liability for the selection and use of the solenoid. Pacbrake shall have no liability for any incorrectly selected solenoid, malfunction, defect, or loss resulting from or related to the solenoid selected. There are no warranties, express or implied, including but not limited to no implied warranties of merchantability and fitness for a particular purpose. Pacbrake's liability shall, in any event, be limited to the purchase price of the solenoid and shall not include any indirect, special, or consequential damages or lost profits.
